Your archive or library has an important collection of audio recordings and you've come up with a project to process it. You're thinking of writing a grant to help fund the project, but you're not sure how to begin.

The Education and Training Committee is presenting a pre-conference workshop that will help you find answers to all your questions. This year's day-long workshop, *From Idea to Deliverable: Planning and Executing Your Grant-Funded Project* can help you understand and find your way through the complicated and complex world of writing grant proposals and completing a grant funded project. The workshop includes an afternoon tour of MediaPreserve (<http://ptlp.com/en/mediapreserve/overview/about-us>). Bus transportation will be provided.

ARSC is once again offering its pre-conference workshop in a live streaming online version for those who are unable to attend the conference in person in Pittsburgh. Our sponsor, Mediasite by Sonic Foundry, will provide a webcast with both audio and video and an archived version will also be made available to all registrants for a limited time.
